HEARING DATE: 06/26/2023 1:30 PM (Continued from 05/16/2023 and 06/20/2023)

APPLICANT: Robin Mayhugh

ACTION REQUESTED: Variance to permit a detached accessory building in the RS district to be greater than 750 sf of floor area (Section 240.2.E)

LOCATION: 5654 S 167 AV W  ZONED: RS

FENCILINE: Sand Springs

PRESENT USE: Residence  TRACT SIZE: 1.07 acres

LEGAL DESCRIPTION: LT 7 BLK 2, OAK HAVEN II Tulsa County, State of Oklahoma

RELEVANT PREVIOUS ACTIONS:

Surrounding Properties:

CBOA-2074 November 2003: The Board approved a Variance of the allowable 750 sf for an accessory building in the RS district (Section 240.2.E).

CBOA-2298 June 2008: The Board approved a Variance of the maximum permitted floor area for a detached accessory building in the RS district (Section 240.2.E).

ANALYSIS OF SURROUNDING AREA: The subject tract is zoned RS and is surrounded by RS zoned lots containing single-family residential homes.

STAFF COMMENTS:
The applicant is before the Board requesting a Variance to permit a detached accessory building in the RS district to be greater than 750 sf of floor area (Section 240.2.E).

The applicant is proposing to build an accessory building to the west of the existing home approximately 1,050 sf in area. The Tulsa County Zoning Code limits accessory buildings in the RS district to 750 sf. This proposal would be 300 sf over the code allowance for an accessory building.

The applicant provided the statement “A Variance would allow a building large enough to store RV and additional car plus storage. RV currently sitting outside and would improve overall appearance of the home. Several homes in the neighborhood have large building for this purpose.”

If inclined to approve, the Board may consider any condition it deems necessary and reasonably related to the request to ensure that the proposed accessory building is compatible with and non-injurious to the surrounding area.
Sample Motion:

"Move to _______ (approve/deny) a Variance to permit a detached accessory building in the RS district to be greater than 750 sf of floor area (Section 240.2.E)

Per the Conceptual Plan(s) shown on page(s) _____ of the agenda packet.

Finding the hardship to be ________.

Finding by reason of extraordinary or exceptional conditions or circumstances which are peculiar to the land, structure or building involved, the literal enforcement of the terms of the Code would result in unnecessary hardship; that such extraordinary or exceptional conditions or circumstances do not apply generally to other property in the same use district; and that the variance to be granted will not cause substantial detriment to the public good or impair the purposes, spirit, and intent of the Code, or the Comprehensive Plan.

ANALYSIS OF SURROUNDING AREA: The subject tract is zoned RE and currently contains a printing service. To the north is a vacant lot zoned CS. To the south and west is RE zoning containing single-family residences. To the east are RS-3 zoned lots containing single-family residences.

STAFF COMMENTS:
The applicant is before the Board to request a Special Exception to permit a fireworks stand (Use Unit 2) in an RE district (Section 410) and a Variance from the all-weather parking surface requirement (Section 1340.D).

A special exception is required as the proposed fireworks stand is a use which is not permitted by right but by exception in the RE district because of potential adverse effects, but which if controlled in the particular instance as to its relationship to the neighborhood and to the general welfare, may be permitted. The proposed use must be found to be compatible with the surrounding neighborhood.

Section 1340.D of the Tulsa County Zoning Code requires that unenclosed off-street parking areas be surfaced with an all-weather material. The applicant is requesting a variance of that requirement so that the existing gravel parking area may be used.

The applicant provided the statement “Because a firework stand is seasonal and temporary, we don’t want to asphalt or concrete in the drive/parking area. The drive and parking area is currently gravel.

If inclined to approve, the Board may consider any condition it deems necessary and reasonably related to the request to ensure that the proposed variance is compatible with and non-injurious to the surrounding area.

BOA-11061 June 1980: The Board approved a Special Exception to permit a home beauty shop and maintain a 2’ x 3’ sign in an AG district.

Surrounding Properties: None Relevant

ANALYSIS OF SURROUNDING AREA: The subject tract is zoned AG and is currently vacant. The tract is surrounded by AG zoning containing single-family residences and agricultural land to the north, east and south and containing a mobile home park to the west.

STAFF COMMENTS:
The applicant is before the Board to request a Use Variance to permit an RV Park (Use Unit 17) in an AG district (Section 310).

The applicant is proposing to place an RV Park on the subject lot. The proposed use would fall under Use Unit 17 – Automotive and Allied Activities, which is not an allowable use in the AG district. This would require a use variance allowing Use Unit 17 on the subject lot in order to permit the proposed RV Park. There is currently a mobile home park immediately to the east of the subject tract. This mobile home park lies within the jurisdiction of the City of Sperry.

The applicant did not provide a hardship, but stated “The City of Sperry has already sold us the necessary sewer taps and water taps for approximately 60 RV hookups, however we plan to install 10 RV hookups (already installed) to see how effective it works and then instal 20 more later.”

If inclined to approve, the Board may consider any condition it deems necessary and reasonably related to the request to ensure that the proposed variance is compatible with and non-injurious to the surrounding area.

RELEVANT PREVIOUS ACTIONS:

Subject Property:

CBOA-2631 May 2017: The Board approved a Variance of the lot area and land area per dwelling unit and a Variance of the minimum lot width to permit a lot-split in an AG district. (Section 330 Table 3)

ANALYSIS OF SURROUNDING AREA: The subject tract is zoned AG and is surrounded by AG zoning containing single-family residences and agricultural land.

STAFF COMMENTS:
The applicant is requesting a Modification to a previously approved site plan (CBOA-2631) to permit a lot-split in a AG District.

In 2017, the Board approved a request for a Variance of the lot area and land area per dwelling unit and a Variance of the minimum lot width to permit a lot-split in an AG district. (Section 330 Table 3), per plan. The approved plan has been included with this report for reference. This previous approved plan had shown two proposed tracts. One tract was to be 0.97 acres and the other 1.29 acres.

The applicant has revised the configuration of the proposed lot split as illustrated on the Lot Split Exhibit provided by the applicant and included with this report. The revised proposed lot split also contains two tracts, with Tract A, as shown on the exhibit being 1.47 acres and Tract B being 0.78 acres.

If inclined to approve the Board may consider any condition it deems necessary and reasonably related to the request to ensure that the proposed use is compatible with the surrounding area.

Sample Motion for Modification:

ANALYSIS OF SURROUNDING AREA: The subject tract is zoned RS and is currently vacant. It is bounded to the north by RS and to the east by RS/IL containing single-family residences and to the south and west by IL zoning containing Industrial uses.

STAFF COMMENTS:
The applicant is before the Board to request a Special Exception to allow a fireworks stand (Use Unit 2) in an RS zoned district. (Sec. 410); Variance of the all-weather surface material requirement for parking (Section 1340.D).

A special exception is required as the proposed fireworks stand is a use which is not permitted by right but by exception in the RE district because of potential adverse effects, but which if controlled in the particular instance as to its relationship to the neighborhood and to the general welfare, may be permitted. The proposed use must be found to be compatible with the surrounding neighborhood.

RELEVANT PREVIOUS ACTIONS:

Surrounding Properties:

CBOA-2699 July 2018: The Board approved a Special Exception to allow a fireworks stand (Use Unit 2) in an RS zoned district. (Sec. 410) and a variance of the all weather surface requirement for parking.

CBOA-3051 March 2023: The Board approved a Modification of a previously approved Special Exception (CBOA-2699) to extend the time limitation (Section 310).

ANALYSIS OF SURROUNDING AREA: The subject tract is zoned RS and contains a single-family residence and is abutted by RS zoning to the North, East and West containing single family residences and to the south by RS zoning containing Highway 412 as well as OM zoning to the east containing a commercial business.

STAFF COMMENTS:

The applicant is before the Board to request a Special Exception to permit a fireworks stand (Use Unit 2) in an RS district (Section 410).

A special exception is required as the proposed fireworks stand is a use which is not permitted by right but by exception in the AG district because of potential adverse effects, but which if controlled in the particular instance as to its relationship to the neighborhood and to the general welfare, may be permitted. The proposed use must be found to be compatible with the surrounding neighborhood.
If inclined to approve, the Board may consider any condition it deems necessary and reasonably related to the request to ensure that the proposed Special Exception is compatible with and non-injurious to the surrounding area.

Sample Motion:

“Move to _______ (approve/deny) a Special Exception to permit a fireworks stand (Use Unit 2) in an RS district (Section 410).

Subject to the following conditions (including time limitation, if any): ________.

Finding the Special Exception will be in harmony with the spirit and intent of the Code, and will not be injurious to the neighborhood or otherwise detrimental to the public welfare.

STAFF COMMENTS: 
The applicant is before the Board to request a Variance of the street frontage requirement in an AG district from 30 ft to 0 ft (Section 207).  

The applicant proposes to utilize the subject lot for a single-family residence. The site is currently accessed via a dirt drive that extends from S 70th West Ave. It appears that Right-Of-Way exists for S 70th West Ave along the western boundary of the subject tract and for W 60th St S, but no county maintained road has been constructed within these rights of way adjacent to the subject tract.  

The applicant has provided the statement that the reason they are seeking a variance is due to not being able to place a home on the subject tract due to the 30’ frontage requirement in the Tulsa County Zoning Code.  

If inclined to approve, the Board may consider any condition it deems necessary and reasonably related to the request to ensure that the proposed variance is compatible with and non-injurious to the surrounding area.

ANALYSIS OF SURROUNDING AREA: The subject tracts are zoned AG-R and contain single-family residences and are surrounded by AG-R zoned lots containing single-family residences.

STAFF COMMENTS: The applicant is before the Board to request a Variance of the minimum lot area in an AG-R district to permit a lot split (Section 330 Table 3).

The Tulsa County Zoning Code requires a minimum of 1.1 acres for a lot in the AG-R district containing a single-family dwelling. The applicant is proposing to reconfigure the two existing lots into three lots as illustrated on the materials provided by the applicant. One lot is proposed to be approximately 0.9 acres in area and the other two are approximately 0.6 acres each. A single-family home is currently located on the two 0.6 acre proposed tracts, while a new home is proposed to be constructed on the 0.9 acre tract.

The applicant provided the statement “The end result will be 3 lots. 2 just over ½ acre with existing houses, one on each lot and the third lot will include the existing shop and a new house construction, which is 1 acre, more or less. We’re not allowed three houses on the existing land, therefore a variance is required. This split and new home build is well planned and will improve the neighborhood.”

If inclined to approve, the Board may consider any condition it deems necessary and reasonably related to the request to ensure that the proposed lot-split is compatible with and non-injurious to the surrounding area.

Sample Motion:

RELEVANT PREVIOUS ACTIONS: None Relevant

ANALYSIS OF SURROUNDING AREA: The subject tract is zoned AG and contains a single-family residence and is abutted to the north, south and east by AG zoning containing single-family residences and to the west by RE zoning that is currently vacant.

STAFF COMMENTS:
The applicant is before the Board to request a Variance to reduce the required 15-foot side setback in the AG District to permit a lot split (Sec. 330, Table 3).

The applicant is proposing to split the subject tract into two tracts as illustrated on the materials provided by the applicant. Currently the subject tract is approximately 9.43 acres in area. After the proposed split, Tract 1, as shown on the applicant materials, will contain 2.46 acres and an existing home and shop/barn building. Tract 2 will contain 6.97 acres and will be accessed via a 30 ft wide strip along the norther edge of the subject tract.

The Tulsa County Zoning Code requires a side setback in the AG district of 15 ft. Based on the proposed lot split configuration, the existing shop/barn would fall within that required setback. It would lie 10.1 ft from the 30 ft strip that is proposed to be used as access to Tract 2.

The applicant has provided the statement that the reason they are seeking a variance is to avoid leaving an awkward shape of land near the existing shop/barn.

If inclined to approve, the Board may consider any condition it deems necessary and reasonably related to the request to ensure that the proposed variance is compatible with and non-injurious to the surrounding area.
Sample Motion:

“Move to ________ (approve/deny) a Variance to reduce the required 15-foot side setback in the AG District to permit a lot split (Sec. 330, Table 3).

ANALYSIS OF SURROUNDING AREA: The subject tract is zoned AG and currently contains a mobile home. The tract is abutted to the north, south and west by AG zoned tracts containing single-family residences and agricultural land and to the east by RE zoned land that is intended to be developed as a single-family subdivision.

STAFF COMMENTS:
The applicant is before the Board to request a Variance to allow a third dwelling unit in an AG district (Section 208).

The subject tract currently contains on mobile home residence. The applicant proposes to place two more mobile homes as illustrated by the site plan provided by the applicant. Section 208 limits AG zoned parcels to a maximum of two dwelling units. In order to permit a third dwelling unit, a variance is required due to this limitation. AG zoned lots area required to have 2.1 acres per dwelling unit. With 7.19 acres, the subject tract has addequate land area to support three dwelling units on the subject tract.

The applicant has provided the statement that they are “moving family in to take care of elderly grandparents of neighboring property. Will install brick wainscotting and new siding to make mobile homes have a clean appearance from the road.”

If inclined to approve, the Board may consider any condition it deems necessary and reasonably related to the request to ensure that the proposed variance is compatible with and non-injurious to the surrounding area.
