Case No. 1943

Action Requested:
Special Exception to construct a 300' self-supporting cellular transmission tower on property zoned AG. SECTION 1204.C.3.2. USE UNIT 4. PUBLIC PROTECTION AND UTILITY FACILITIES, located Tulsa State Fairgrounds/Expo Square.

Presentation:
John Brightmire, 320 S. Boston, Ste. 500, submitted a packet of information (Exhibit A-1) to the Board. The application is for a 300' galvanized steel, self-supporting lattice cell tower. The site is on .3 acres of the fairgrounds property to the north and west. There are no residential structures for more than 548' north. The nearest residential district is 548' to the north. There is an existing tower about ¾ mile to the southwest. The OSU Extension Center is located to the north then residential across 15th Street. Fairgrounds property surrounds it on the east, west and south. The surrounding topography is flat with very few trees. The proposed tower would accommodate six carriers. No building is planned; and all required buildings/equipment cabinets were to be located on the site. There is a 40' access and utility easement running east from the site then north to 15th Street. The tower is necessary to provide coverage and capacity for the fairgrounds and surrounding area. The landscaping will be done as required. They plan to build a six-foot chain link fence with three rows of barbed wire at the top.

Comments and Questions:
Mr. Dillard suggested that a nine-foot fence and barbed wire would be better at this site. Ms. Fernandez informed the Board that the notices were sent to a radius of 300' from the outside perimeter of the fairgrounds, which was extra notice in this case.

Interested Parties:
There were no interested parties who wished to speak.

Board Action:
On MOTION of Dillard, the Board voted 4-0-0 (Alberty, Walker, Dillard, Hutson "aye"; no "nays"; no "abstentions"; Tyndall "absent") to APPROVE a Special Exception to construct a 300' self-supporting cellular transmission tower on
property zoned AG, per presentation, subject to raising the fence to 9’ and three rows of barbed wire at the top, finding it will be in harmony with the spirit and intent of the Code, and will not be injurious to the neighborhood or otherwise detrimental to the public welfare, on the following described property:
