Finding that the because of the unusual configuration of this land being slightly smaller than the 2.1+ acres that it would allow for a second dwelling to occur without unnecessary disturbance of the surrounding area and would not disturb the special conditions stated in the Code and it would not be a detriment to the public good.

Finding by reason of extraordinary or exceptional conditions or circumstances, which are peculiar to the land, structure or building involved, the literal enforcement of the
terms of the Code would result in unnecessary hardship; that such extraordinary or exceptional conditions or circumstances do not apply generally to other property in the same use district; and that the variance to be granted will not cause substantial detriment to the public good or impair the purposes, spirit, and intent of the Code, or the Comprehensive Plan; for the following property:

Presentation:
Felicity Good, 175 East 2nd Street, Suite 480, Tulsa, Oklahoma, 74103, stated that she was with the City of Tulsa Planning Office. This property is zoned IM, but the heliport falls under Use Unit 2, Area 1, Special Exception. The property is located on East 66th Street North just east of Highway 75. The existing parcel houses Tulsa Police Academy and it is adjacent to the Tulsa County Sheriff's Training Facility. It is also adjacent to the U. S. Shooting Academy which is a firearms training facility. To the west and north are primarily industrial uses and distribution centers. The AG area to the south down to Bird Creek is undeveloped land. This will fill an urgent need that Tulsa Police has to store their helicopters. Currently, they are using a hanger owned by the Osage Nation, but it is a temporary situation. The Osage Nation has asked the Tulsa Police to find another location to store their helicopters. There is a site plan in the Agenda packet and it shows where the heliport will be built which is near the center of the property. It is setback about 1,000 feet from 66th Street North so that combined with the presence of other buildings, it would not be very visible from the street, but it would connect 66th Street through the internal circulation system that serves the Police Academy. It would feature a hanger, a helipad, and some parking.

Max Well, 175 East 2nd Street, Suite 480, Tulsa, Oklahoma, 74103, stated that the Police Department helicopters take off on an as needed basis and they do two-night patrols. There are two helicopters. They intend to take off straight to the north and follow Lakewood until they reach the altitude they need and head south. They had lengthy discussions with Tulsa International Airport as far as the location and the airport was good with the distance from them.
